Dear Richard,

I am attaching a scanned copy of the December 28, 2012 letter that I've written to you on behalf of my client, New Mission, LLC, regarding 104(e) Letters to Other Potential Sources and an attachment (a scanned copy of the July 24, 2012 letter to Michelle Marcu). I will mail the original letter to you via the U.S. Postal Service.

Please don't hesitate to contact me if you have any questions. Thanks very much!

Connie

Connie - I just wanted to let you know that I haven't been ignoring your questions regarding 104(e)s to other potential sources and regarding the details of design and estimated cost of the water treatment system. With the holidays and everyone trying to use up leave before the end of the 2012 leave year, which ends this Saturday, I haven't been able to gather all the information to answer your questions.

I can tell you that EPA has not sent 104(e) information requests to any other parties. After receipt of your July 24, 2012 letter, EPA coordinated with the State regarding the properties you identified and the State took the lead in investigating those properties. The State sent RCRA section 3007 information requests to 3 of the 4 properties listed in your letter. EPA is securing copies of those letters and any responses and will send you copies when we have them available.

I hope to have the State documents and information regarding your other questions ready to send to you late next week or the following week.

Let me know if you have any questions in the meantime.

Connie - Here are the documents EPA received from the State regarding the information requests to other potential sources.

(See attached file: 08-1258263.pdf)(See attached file: 08-1258260.pdf)(See attached file: 08-1258261.pdf)(See attached file: 08-1258262.pdf)

In regards to your other question on bids and contracting, I would like to speak to you sometime next week to clarify exactly what you want. Some of what you want may be considered confidential business information (CBI) that EPA can't release in most cases. Also, some documents may have portions that are considered CBI and EPA would have to redact the CBI portions before we release the document, so before we spend the time really working on these documents, I want to make sure I understand exactly what you want.

So give me a call or send me an e-mail letting me know when would be a good time to have a call next week.

Thanks
